ASTROPHYSICIST

BASED ON THE CURRICULUM OF THE UNIVERSITY

Drinking up the dark side of the Sun? Pulsars give you a novel view
of the night sky. How fast is time for the world's fastest? Maths
is the language of the universe and just thinking in its language, it gives
you confidence to capture the world – or the universe. **AMSI** & the
university will guide you through your journey of discovery at your institution.

Once you discover what Maths is, expanding your mind and exploring your
talents will be no easy feat. How would you not want to work on that?
