

# CHOOSE MATHS

OUR BEST EDUCATION PRODUCT

Like many Victorian's I grew up 'the hard' recognising the risks and stress being placed. We continue to understand more from our school teachers with each session, the danger, the trends and the challenges.

My job involves the analysis and management, complex budget management, legal and problem solving for some of the County's largest projects, all focused on ensuring our service delivery to the community. Maths allows us to quantify our response times, which can help to save lives.

My name is

## Cassie Pennicuk

and that's why I CHOOSE MATHS, because it's **MORE THAN JUST NUMBERS**, it's keeping communities safe, allowing our members to protect life and property.
