

CHOOSE MATHS

FOR AMBITION. FOR CURIOSITY. FOR KNOWLEDGE.

I am
more
than a
number

After about 20 years in the music industry, Tracy continued to get to sleep at night after being pulled out of it numerous times. Some people find it a strange combination, but it's really not as far-fetched as it may seem. Music is mathematics, and it reshaped the way she thinks – and it was there to lift her to the final piece.

Nevertheless, it's rewarding in the field of math analysis. In any given moment – could be working on jobs, solving mathematical equations, creating interactive simulations or discovering the real-world creative world of data visualization.

By **Charles Gray**

and math's why I **love** it. Because it's **more** than just numbers, it's made me a part of something, something that is going to change the future.
