When I was young, we moved around a lot. It was always difficult to adapt to a new culture and learn a new language, however mathematics is the same no matter where you are in the world.

Today I'm dealing with data every day, but it's not the numbers that excite me, it's the opportunities they present. Critical thinking, problem solving and strategic decision making help me to build our company's portfolio of mining assets.

My name is

# KARIN DITCHFIELD

and that's why I **CHOOSEMATHS**, because it's **MORE THAN JUST NUMBERS**, it's a global language in today's fast paced world.

*KARIN DITCHFIELD IS A SPECIALIST IN THE PORTFOLIO STRATEGY AND DEVELOPMENT TEAM AT BHP BILLITON.*

CHOOSEMATHS is a joint initiative of the Australian Mathematical Sciences Institute (AMSI) and the BHP Billiton Foundation.
