MATHS ALLOWS US TO MAKE PREDICTIONS, TO BOTH SEE WHERE WE ARE GOING & FROM WHERE WE HAVE COME.

- Dr Ben Galton-Tee

DISCOVERY ON THE ICE

MATHS TAKES YOU PLACES...  **ANTARCTICA**

A PhD in mathematics between Antarctic glaciers, ice, freshwater and climate has led Dr Ben Galton-Tee to a career as a geologist.

Working at the Australian Antarctic Division and the Antarctic Climate and Ecosystems Cooperative Research Centre, Ben is just getting started during his PhD to improve our understanding of the climate system.

The CSIRO STAG Postgraduate in Quantitative Earth Science (2015) is offered through the University of Tasmania's specialist Institute for Marine and Antarctic Studies and CSIRO Marine and Atmospheric Research.
