

I MAKE SURE THE NECESSARY CONNECTIONS ARE MADE BETWEEN SUSTAINED OBSERVATIONS, MATHEMATICAL MODELLING, RESEARCH & PEOPLE TO SUPPORT MARINE SCIENCE & OCEAN SERVICES WORLDWIDE.

- Dr. Kip Hill

A GLOBAL VIEW OF THE OCEAN

MAKING THE WORLD YOUR PLACE...  SWITZERLAND

From a PhD that dealt with the relationships between topography and sea level rise to the Gulf Stream and changes in the East Australian Current and its ecosystems, Dr Kip Hill is now working for the World Meteorological Organisation in Geneva, Switzerland.

Kip Hill completed his PhD under the CSIRO/AMSI PhD Program in Quantitative Marine Science (QMS).

The CSIRO-AMSI PhD Program in Quantitative Marine Science (QMS) is offered through the University of Tasmania's specialist Institute for Marine and Antarctic Studies and CSIRO Marine and Atmospheric Research.
