**TASMANIA**

This is a great time to use a key tool for looking at the state of marine systems now, in the past, and how they may turn into the future with a variety of usage and climate use.

Dr Beth Fulton, University of Tasmania PhD graduate is a world expert in ecosystem modelling based at CSIRO Marine and Atmospheric Research. Beth co-supervises students in the CSIRO-UTAS PhD Program in Quantitative Marine Science (QMS).

The CSIRO-UTAS PhD Program in Quantitative Marine Science (QMS) is offered through the University of Tasmania's specialist Institute for Marine and Antarctic Studies and CSIRO Marine and Atmospheric Research.
