

I WOULDN'T HAVE  
GOT ANY OF MY  
JOBS WITHOUT  
MY PHD IN  
QUANTITATIVE  
MARINE SCIENCE.

- Dr. Sophie Bevilacqua

## PHD'S THAT TAKE YOU PLACES

MATHS TAKES YOU PLACES... **FRANCE**

For Dr Sophie Bevilacqua, a PhD in Quantitative Marine Science (2015) with honours and funding, got her out of Australia and into France to do what she really wanted to do - collect data in Corsica and the Azores.

Now working on climate's ocean, fisheries, periglacial and high-mountain "hotspots" or areas of high ecological significance in the Southern Ocean and Arctic in marine and terrestrial - Dr Bevilacqua will use all the skills she learnt in her research location.

The 2015-2016 PhD Program in Quantitative Marine Science (2015) is offered through the University of Tasmania's specialist Institute for Marine and Antarctic Studies and CMRS Marine and Atmospheric Research.
